

Special SWAT Issue

Thirteenth Annual IEEE Symposium on Switching and Automata Theory

The papers in this issue are based on working papers presented at the Thirteenth Annual IEEE Symposium on Switching and Automata Theory, which took place on October 25–27, 1972, at the University of Maryland. These papers were submitted to this *Journal* at the invitation of the special issue editor. Each of them has been through the standard refereeing process.

The Editors wish to thank the authors and referees for their cooperation in preparing this issue.
